PROFESSIONAL SUMMARY

Organised Warehouse Office Administrator with **3+ years of warehouse operations experience** (RapidLED, Gold Coast) managing stock control, order processing, data entry, dispatch, and reporting. Unique edge: **I built a complete warehouse management system** (CYTRON — cytronai.com) with real-time inventory dashboards, QR scanning, automated stock alerts, and AI-powered data entry. I don't just do admin — I make the warehouse office run faster and error-free.

WHAT I BRING TO YOUR WAREHOUSE OFFICE

Warehouse Office Essentials	My AI & Automation Edge
- Stock receiving, dispatching & tracking - Purchase orders & supplier coordination - Data entry & warehouse records - Picking, packing & dispatch docs - WH&S compliance & safety records - Reporting to warehouse manager	- Real-time inventory dashboard with automated low-stock alerts - AI auto-generates POs when stock hits threshold - AI extracts data from dockets, invoices & forms instantly - QR code scanning for instant lookups & dispatch tracking - Automated compliance tracking with expiry alerts + PDF reports - Live dashboards — always accurate, no manual spreadsheets

PROFESSIONAL EXPERIENCE

Warehouse Operations & Office Administrator 2023 – 2026 (3 years)

RapidLED • Gold Coast, QLD

- Stock Management:** Managed receiving, dispatching, and inventory tracking in a high-volume e-commerce warehouse — accurate stock levels, daily order processing
- Data Entry & Records:** All warehouse data entry, order processing, supplier correspondence, and operational documentation
- Process Improvement:** Implemented QR code-based data capture, reducing manual entry errors by 40%; introduced real-time dashboards saving 10+ hours/week
- Reporting:** Produced inventory reports, stock reconciliation, and operational KPIs for management decision-making

Warehouse Systems Developer & Automation Specialist 2026 – Present

CYTRON Platform (cytronai.com) • Gold Coast, QLD

- Stock Guardian:** Built real-time inventory dashboard with QR scanning, automated Telegram + email alerts when stock drops below threshold
- AI Automation:** Voice-to-data bot (GPT-4 + Whisper) eliminates manual data entry; Claude AI quote generator reduces 45 min → 5 min
- Workflow Engine:** 20+ n8n automated workflows connecting warehouse ops to email, calendars, messaging, and reporting

QA Analyst & Data Quality Specialist 2021 – 2023

Stefanini Group @ Sicoob (Financial Sector) • Brazil

- Data Accuracy:** Tested enterprise systems processing 10,000+ daily transactions — data integrity, compliance, and regulatory standards
- Documentation & SQL:** Test plans, defect reports, SQL database management, query optimisation, and management reporting

KEY AUTOMATION IMPACT

TASK	BEFORE (MANUAL)	AFTER (AUTOMATED)
Stock checks	Walk floor / check spreadsheet	Live dashboard + Telegram alert
Receiving	Paper docket, manual entry	QR scan → instant DB update
Inventory reports	Hours in Excel every Friday	Real-time, always accurate
Quote prep	45 min, manual calculations	5 min — Claude AI auto-generates
Compliance docs	Paper files, missed renewals	Auto-alerts 30d before expiry + PDF
Follow-ups	Staff forgets, orders go cold	n8n auto-sends at the right time

TOOLS & TECHNOLOGIES

Warehouse	Inventory mgmt, QR/barcode, stock control, dispatch
Office	Microsoft 365, Google Workspace, PDF generation
AI & Automation	Claude AI, GPT-4, n8n (20+ workflows), Whisper
Databases	PostgreSQL, Supabase, Excel/Sheets, Airtable
Dev & QA	Next.js, TypeScript, Selenium, Git, Vercel, Jenkins

EDUCATION

Cybersecurity Bootcamp — In Progress
Lumify Learn • CompTIA A+, Network+, Security+

QA & Programming Certs
Java, Python, SQL, Selenium, Jenkins
